Hi,

My name and address is

Sean Barry

[REDACTED]
[REDACTED]
[REDACTED]

Need high speed electrified railways between all our cities.

Need metro north, dart underground and metro west which connects with all trains coming from provincial towns and cities to the airport.

Cities should also get their own luas trams.

High rise developments in city centre and close to train stations

Need to cover the whole country in cycle lanes.

All towns in the country should get a decent sized park and forest for the inhabitants.

Motorways and railways should have wind and solar power located beside them.

Best Regards,

Sean.
