Fergus O'Brien,
[REDACTED]
[REDACTED]
[REDACTED]

My submission includes the following

- 1.Finish building the motorway network.
- 2.Upgrade rail network to facilitate high speed intercity train 200km per hour.
- 3.Build a new shipping port along a suitable location on the east coast to ease traffic congestion in the dublin area by removing a lot of artic lorries from the capitals roads.
- 4.Create regional cities of excellence by concentrating specific industries to these regions and intergrating third level college with these industries.
- 5.Put planning in place now for new schools to be built in the future to accommodate expected population growth. Identify sites now and zone them accordingly so it's only a matter of showing up to build them in 15/20yrs time as the need has been well flagged up in advance.
- 6.Build a new children's hospital in the middle of the country, road and rail links to be easily accessible from all parts of the country.

Regards,
Fergus
