- 1) Since we will have older people increase by 20% or so in 2040 I suggest RETIREMENT villages built for seniors, with, shops, LIBRARIES, community gardens and partial care for a nominal cost.
2. WORK-college-programmes for all students in 3rd level facilities all over Ireland.
3. FREE RENT for small businesses, including petrol pumps in villages. all over Ireland.
4. HOSPITAL INSURANCE of €50 a month for everyone. *(inc. families)*
5. Reduction of road tax on cars.
6. Tourism based on Parks and wildlife.  
Farmers given €730 per month for wildlife active protection. Flooded areas for wild fowl protection  
~ wild life parks. - such as Shannon River areas. Focus tourism on such areas.
7. Bicycle paths
8. Control of technology -
9. Drinking water sources kept clean. *Immigration*
10. Quota on numbers coming into Ireland (Emigration)  
*... M. Doyle*

## Notes on submission suggestions

- 1) Senior villages - 2 bedroom houses  
STAFF Rental houses in a ratio of 5:15 seniors
2. Work programmes. 3 days per week.
3. FREE Rent for 3 small shops per village  
Stocking all necessities including petrol pumps.  
+ stamp purchases.
4. Hospital insurance £50 per month - two adults  
£100. children free.
5. Road TAX on cars, reduced by 50% on smaller  
car. Large cars full cost. Large trucks full  
cost.
6. We should go "all out" for wildlife Tourism  
with good social life in the evenings  
on a "starlight" theme with possibly cabarets  
of a mixed cultural background. All acts  
socially unacceptable ruled out. People  
don't come to Ireland to experience  
Vulgarity. on TV. or in night clubs.
7. Bicycle Paths everywhere. Can be shared  
by walkers. Cyclist dismount when they  
meet walkers.
8. Control Technology to essentially "needed" aspects.
9. Drinking water sources inspected weekly  
(public)
10. Quotas put on immigration to Ireland.  
1/10 of the population, or immediate relatives.
