Tory Hill Loop Walk. Playground to be in Bigwood Parish as soon as possible. 5 years of hard work so far fundraising.

Please see our facepage namely Bigwood Childrens Playground. Given the New Boundary hopefully and that we have all our present neighbours surrounding the playground to be in Bigwood, onboard as things stand. This appears to be a straight forward project given that one would presume that more and more houses will be built on these areas as has been the case in the last 30years.

Therefore we ask for money 50,000euros and full commitment to establish this project. As it ^{is} common sense that people with children need to form healthy relationships in order for society to grow and function accordingly ,and children need to learn to play together hapily . Children and adults need somewhere on a common ground and at present we don't have a public meeting place outside of the church here in Bigwood.Churcht .Church is open for an hour twice weekly for mass then closed other than for private weddings, communions, etc and funerals. So the point is this people need to have a public meeting placeto enjoy each others company, other than inside Church.And

going knocking on peoples doors. Children generally speaking are spending too long on these internet gadgets at the present time and to need to hold healthy conversations or at least use eye contact and even play a game of football on the street where has all the healthy living gone? Back when I was growing up a trip to the park with grandad was such an exciting experience.A game of tennis with grandad these are the sort of simple activities that stand out in my memory and wouldn't it be lovely if we could share such happy times like this in between such a hectic life that so many of us lead. What an inspiration it would be to see basic childrens playgrounds in every community in Ireland. To think so many friendships could be made and what a motivation for us human beings to drive us onward to better things.What would it take to do this for our children and grandchildren,after all so much money is wasted on the media,the system should not be all about who can be the best but who can live a decent hardworking life and enjoy it and in a way that is of benefit not just for ones self but for the good of others.

I State my case .

Please consider the children of today lin your tight budget.

Yours faithfully,

Anne-Marie Fox.

BIGWOOD PARK COMMITTEE

secretary.

or [redacted]
(park helper)

Please e-mail me on [redacted] gmail.com or mobile [redacted] and please if you decide to help can you kindly inform Counsellor [redacted]

[redacted]
Our good neighbour.

Thankyou again. Onwards we go until completion.
Anne-Marie.
